## Introduction-RRCN

Nursing has a history that parallels the history of human kind. From the dawn of civilization, evidence prevails to support the premise, that nurturing has been essential to preservation of life, survival of human race, therefore it is inextricably intertwined with the development of nursing. The roots of medical and nursing are intertwined and found in mythology, ancient cultures, religion and reasoned thinking. Nursing today is the different from nursing as it was practice some decades ago. Now it is a profession since it has several characteristics of true profession, which include body of knowledge, specialized education, service to society, accountability, autonomy, code of ethics, professional association and organizations. Like other profession, nursing education moved into the mainstream of higher education. Education in nursing, moved into colleges and universities offering baccalaureate degree to qualifying the nursing as a recognized profession. And to provide leadership in the nursing education, administration, teaching and public health nursing and also provide an opportunities for higher education, occupy higher post in nursing. Since nursing is a discipline, a career, rich in opportunities and variety.

Our RajaRajeswari college of nursing have joint programmes in nursing running in conjunction with Rajiv Gandhi University of Health Sciences Karnataka, India. And those programmes lead to registration as nurse plus a degree in nursing which includes.
